Summary

Full-stack developer with more than 3 years of experience in TypeScript, MERN, Next.js, WebSockets, AWS, Jest, PostgreSQL, and Prisma. Passionate about problem solving and unraveling the mysteries behind computer science.

Technical Skills

Languages: JavaScript, TypeScript, Python

Frontend: React, Next.js, Tailwind CSS, TanStack Query, Redux

Backend: Node.js, Express.js, REST APIs, JWT

Database: PostgreSQL, MySQL, MongoDB, Prisma ORM

Tools: Git, Docker, Playwright, Jest

Experience

Software Engineer Jun 2023 – Feb 2026

Undef Studio, India

- Reduced application load time by **50%** through frontend optimization, code splitting, and performance improvements.
- Contributed to a UI redesign and built reusable, type-safe UI components using **Next.js, TypeScript, Tailwind CSS, and Shadcn/UI**, improving maintainability and development speed.
- Designed and optimized database interactions using **Prisma ORM** with **PostgreSQL**, and contributed to schema improvements.
- Wrote end-to-end and integration tests using **Playwright** and **Jest**, improving application reliability and reducing regressions.
- Collaborated with designers and backend engineers to translate business requirements into scalable, user-focused features.

Software Developer August 2026 – Present

Cyfuture, Noida

Projects

Automiq - Workflow automation platform Live — GitHub

React, TypeScript, Node.js, Express.js, Redis, BullMQ, PostgreSQL, TanStack Query

- Developed a visual workflow builder that supports webhook and schedule triggers, actions, conditional logic, and execution history.
- Built a **distributed** job execution engine using **Redis** and **BullMQ** with retry mechanisms and background workers.
- Implemented a scalable **multi-tenant** architecture with organization-level isolation and role-based permissions.
- Optimized workflow execution for fault-tolerant and concurrent task processing.
- Implemented real-time workflow monitoring with detailed execution logs and retry mechanisms.

Other Projects: Mailgaurd — CodeIQ

Education

Bachelor of Computer Applications August 2022

Maharshi Dayanand University, Haryana

Additional Details

Side Quest: Identified web application vulnerabilities including **XSS**, **Race Conditions** through responsible disclosure and bug bounty programs. HackerOne Profile
